# Mi CHR-70 till 70

A simple 6.4 litre bass reflex bookshelf design using Markaudio's CHR-70 full range driver.

- Use 15mm MDF or marine ply.
- Add 15mm or thicker sound damping material to get your sound you like.
- Try adding a simple filter, experiment by starting with a 0.50-mH inductor and 10W 4Ohm resistor.
- Add a port, 40mm diameter x 144mm long for a frequency of 58Hz, F3 cut off 52Hz (-3db).

Have Fun!

Wired in series with filter
i = inductor
r = resistor
